

Water Supply Update

Serving the Communities of Hampton, North Hampton, & Rye

Weather Trends/Outlook

The Seacoast remains in an Abnormally Dry condition; only 3.9 inches of rainfall fell in April; compared to the average of 4.6 inches. The rainfall deficit is 2.1 inches over the past year.

The U.S. Drought Monitor (<https://droughtmonitor.unl.edu>) currently shows that drought conditions continue to be **Abnormally Dry** on the New Hampshire seacoast.

New Hampshire Precipitation

Current Water Use Restrictions

Currently, there are no water use restrictions. However, as the growing season is starting in the area, residents are encouraged to practice efficient outside water use, which will reduce the probability of water use restrictions later this summer. For guidance on the efficient use of water to maintain yards, gardens and other outside plants, please visit:
